## Return to Work Covid-19 Testing

Need to ensure your workforce is safe and virus free?

We are committed to getting people back to work. The sooner this is done, the quicker our economy will recover.

Sometimes it's not possible for your people to work from home. That means you need to ensure your workforce is safe and virus free.

Our 15-minute COVID testing gives organisations a rapid solution. The current Government testing regime is under pressure. Rapid testing provides a scalable solution for your business and eases the burden on the NHS.

## Return to Work Covid-19 Testing

Our testing services meet the latest Government guidelines and are CE approved. They have been awarded the highest accuracy rating in the UK and have been purchased in large quantities by HM Government.

### Digital Data

Results are linked to a Cloud based, data-driven digital tool that enables symptom tracking, test result management, risk assessment, estimated return to work date, contact tracing and a comprehensive reporting suite.

### 15 Minute Covid-19 Test

The Antigen Swab test consists of a sole nasal swab. It is the only 15-minute Antigen currently available in the UK.

### The COVID-19 Rapid Antigen Point of Care Test

Rapid test for the detection of SARS-CoV-2 antigens in human nasopharyngeal swab specimens

The Antigen Swab Test is performed by fully trained, insured operatives, ensuring accurate results and safeguarding against cross contamination. This removes the user error and cross contamination that can make home tests unreliable and inaccurate.

## Fit to Fly, Fit to Travel **Certification**

Business travel and flying are still a requirement for many organisations. A number of airlines now require a 'Fit to Fly' certification, which is proof you've undergone an Antigen Swab Test and passed within a certain time frame.

Our Rapid Antigen test consists of a sole nasal swab. Testing can be carried out onsite, at one of our COVID secure testing facilities or in the comfort of your own home, by one of our fully trained and insured operatives, ensuring accurate results and safeguarding against cross contamination.

All results are available within 15 minutes of testing and the time/date and outcome of your test will be emailed to you within 24 hours. Results and certification can then be presented to the respective airline.

Protect lives, save livelihoods.
