SteriPods:
Advanced **infection
protection** gateways

SteriPods

Advanced Infection Protection Gateways

We believe in bringing Britain back to business by protecting your customers and your people. Our SteriPods is the latest in Covid Prevention technology and enables organisations to open their doors and get people back to work.

SteriPods are walk-through gateways that take less than 10 seconds to disinfect each person, allowing your customers and employees to flow smoothly as they move onto your premises, with minimal interruption.

SteriPods lead the way in tailored solutions for offices and venues in all sectors and for organisations of all sizes. As an advanced doorway protection system, SteriPods provide reassurance to employees and give visitors the confidence they need to begin interacting once again.

Free-standing Units

SteriPods are easy to install, free-standing units. They are simple to relocate if you need to adjust traffic flow and available in sizes and combinations that suit your organisation.

SteriPods are suitable for adults and children and are designed to be 'access friendly', to support users that may be less able or those with wheelchairs or mobility aids. SteriPods feature a tank that can hold up to 40 litres of SteriMist, a fragrance free and odourless disinfectant that has been developed by international hospital supply. Running costs are less than 3p per person.

SteriMist

SteriMist is an ultra-fine, dry sterilising mist that provides total disinfection from head to toe and lasts for up to 70 hours. The dry mist is an alcohol free, organic, water-based solution that kills 99.99% of bacteria and viruses without irritating eyes or skin and it won't damage hair or fabrics.

Limelight

SteriPods deliver a **total** body sanitising treatment

Safe and Hygienic

SteriMist is a fragrance free and odourless disinfectant. It contains no alcohol, and, unlike alcohol-based disinfectants, it is gentle on the skin and avoids irritation when used frequently. According to scientifically proven formulation, SteriMist gives longer-lasting protection than alcohol-based disinfectants.

SteriPods deliver a total body sanitising treatment that includes the hands. The drip tray underfoot even kills bacteria on the soles of the shoes. People pass through the unit without touching any handles or surfaces.

As part of the SteriPods solution there are optional extras that are available, including a digital wall mounted thermometer for testing people's temperatures and facial recognition systems. People can easily pass through without the need to touch any handles, buttons or surfaces.

These include:

- Thermometer
- Thermal Camera
- Hygienic Mats
- Turnstile Passing System
- Bespoke Design for Companies
- Hand Disinfectant
- Special Voice Commands for Companies

SteriPods are a fresh innovation for the new normal and the new ways of working.

Limelight Workspace

We understand
that **returning
to work is a
new territory** for
every business

Covid-19 has changed the way we work. The uncertainty many of us face means we have to be flexible and pivot to different priorities. Flexible working is here to stay, and offices will need to accommodate this change. Businesses also need to protect their capital amidst the economic uncertainty.

Companies implementing measures for new methods of working will ensure their employees work effectively, productively and most of all – safely. Employees will have peace of mind knowing their company is looking after them.

Quality products

We source premium products designed for the workplace and for home working. Working with suppliers whose products deliver great design, durability and innovation.

Procured at scale

Scalable solutions suit companies of any size. Easily and cost-effectively delivered to businesses and multiple home addresses.

We offer everything from individual products to pre-bundled offerings that can be quickly ordered and dispatched, equipping your people in the office or at home and ensuring that your workspace is safe and fit for purpose. By purchasing a bundle, you save money buying multiple necessary products.

Experts in fulfilment

Limelight empowers companies to continue working effectively, productively and safely. Drawing on our heritage and expertise in fulfilment, we source and deliver quality products to you when and where you need them, providing practical solutions that can be deployed at scale.

Flexible financing

Financing options are also available to help protect company expenditure in uncertain times. Limelight Workspace offers flexible financing and scalable products to accommodate your changing requirements. On order values more than £10,000, you will be able to lease your products. Saving on precious capital. Should you need to return the products, you can. No questions asked.

Socially responsible

We source quality products including recyclable and green solutions that are socially responsible. Products can be pre-selected, but a choice of options is available to your employee to suit their home environments.

Exceptional customer service

We understand that returning to work is new territory for every business. Which is why we'll guide you through the purchasing process, respond to your business needs and offer first-class after-sales support so that you're happy with your products.
